March is SUDC Awareness Month!

The SUDC Foundation is once again leading efforts to raise awareness of SUDC around the world. Sudden Unexplained Death in Childhood (SUDC) is the only organization worldwide whose purpose is to promote awareness, advocate for research, and support those affected by SUDC. SUDC is the fifth leading category of death in children ages one to four, yet SUDC receives no public funding. The SUDC Foundation provides all services at no cost to families. March is all about raising awareness for SUDC and strengthening our community of advocates for the benefit of all children.
